# KIDPOSED DROP SYRUP

Each 1ml Drop : Triclofos Sodium 100mg  
Each 5ml Syrup: Triclofos Sodium 500mg

## DISTINCTLY SUPERIOR TO CHLORAL HYDRATE

- ▣ Provides early onset of sleep up to median duration of 90 mins<sup>1</sup>
  - ▣ Triclofos is an effective sedative in children<sup>2</sup>
  - ▣ Offers better palatability and less gastric irritation as compared to chloral hydrate<sup>2</sup>
- ◆ Shortens the time of onset of sleep
  - ◆ Ensures 6-8 hours sleep
  - ◆ No hangover
  - ◆ High safety margin

*"Triclofos is stable ester of Trichloroethanol, The derivative of chloral hydrate. It is specially widely employed in children and in elderly people because it is well tolerated and is a safer drug."*
